

CONTROL BOX

MODEL: CP-CB01

Product Introduction

Enhance security and streamline pedestrian flow with our “Turnstile Gate Control Box”—a versatile and user-friendly solution for gate automation. Designed for turnstile gate systems, this compact yet powerful control unit ensures precise operation with intuitive push-button functionality.

- Key Features:
- ✓ Opening Direction – Set bidirectional or unidirectional gate movement to optimize traffic flow.
 - ✓ Direction Lock – Restrict access to one direction for controlled entry or exit.
 - ✓ Free Passage Mode – Temporarily disable gate restrictions for high-traffic scenarios.
 - ✓ Emergency Override – Instantly unlock gates for safe evacuation during emergencies.

Simplify access control. Maximize efficiency.

Technical Parameter

• Size	205*108*50mm
• Material	Iron with black powder coated and acrylic
• Working voltage	DC 12V
• Out put	Realy/ Dry contact
• Mode	Left open, right open, right open, left lock, right lock, left free, Emergency.
